## Enhance Your Golf Tournament:

Participants in golf tournaments are looking to enjoy themselves – the connections they make, the people they meet and the overall experience. We help them keep those memories.

Our specialty is **event photography** – we focus in enhancing the golf tournament experience, as well as helping to **raise additional funds** for the tournament sponsor's cause.

We set up at a predetermined location out on the course and take shots of the players either putting or teeing off. While playing through, we also take shots of all of the foursomes together. (This is done quickly and does not slow down play...) We have a display set up at that location where the participants can see examples of the work we do and they can indicate some of their photo preferences. Our display reminds them that purchasing the photos will help the tournament sponsor as well.

Shortly after the tournament, we make the photos available to the participants at our web site. There is no obligation - if there is something they wish to purchase, they can. They can order pro-quality photos, posters, and other related gifts using the images we take. They place their order online, and it is shipped to their home directly.

We do more than just take "static" participant photos. We specialize in "commemorative" photos and posters. These photos can be turned into customized prints and posters that the participants will want to proudly display as a memento for years to come.

### What do we need to get started and photograph your tournament...?

- **Coordinate with the tournament sponsor** – start up "packages" can contain a short flyer.
- Access to course pro to **determine the best location on the course** to set up.
- *(Optional)* If there are celebrities or VIPs that are participating, we can arrange to have participants' photos taken with the VIP's. This can be an additional option after the golfers return to the club house or as a stand-alone option.
- *(Optional)* We can arrange to take candid photos throughout the day.

**REMEMBER** - There is no financial commitment... no up front costs... only the opportunity to provide your participants with great keepsakes of their tournament experience

**These commemorative photos increase enthusiasm,  
promotes awareness of the tournament and  
creates a "buzz" about the sponsor's cause!**

**Call us now to arrange for us to cover YOUR event!**
