

Enhance Your School's Activities:

Students participate in a variety of activities and have families who are proud of their many accomplishments. We help them keep those memories and **can help your school as well!**

Our specialty is **event photography** – we can cover most special school activities. These can include sports, school fairs, performances, awards ceremonies or any extracurricular event.

We take action photos of the students and families as they participate in these activities. We make the photos available to their families on our web site shortly after an event**. There is no obligation - if there is something the family wishes to purchase, they can place their order online, and it is shipped directly to their home. Within a few short days they receive professional-quality photos, posters, and other digital gifts using the images we take. **There is no extra work by the staff and nothing for the students to lose on their way home!**

We can take more traditional “posed” class and student photos as well. However, our action event photography takes student pictures to the next level! We specialize in “commemorative” photos and posters of students participating in their activities. These photos can be turned into customized prints and posters that their families will want to proudly display for years to come.

What do we need to get started and to photograph your school's activities...?

- **Coordinate an event schedule with school administrators and/or parent groups...**
- Teachers and/or parents groups to **hand out flyers** explaining what events are being covered and where to see photos when available. (We supply all flyers to hand out...)
- **(Optional)** Opportunity to **set up displays** on-site to show people the quality of our work and to show proofs for those who haven't visited the web site. (This can be at special events, games, or at any parents' event at the school.)
- **(Optional)** We offer complete **fund-raising options** for school and parents groups.

REMEMBER - There is no financial commitment or up front costs... We offer the opportunity to provide your students' extended families with memorable keepsakes of their participation and offer high-quality photos and imagery gifts that will last a lifetime.

**These commemorative photos increase enthusiasm,
promotes awareness among families and
creates a “buzz” about the school's activities.**

Call us now to arrange for us to cover YOUR events!

*** Upon request, we can also offer families printed proof sheets and direct purchases if they do not have computer access ...*
